This matter comes before the Public Service Commission of South Carolina (the Commission) on the Application of Reliable Services Group, Inc. DBA Two Men and a Truck (Reliable or the Company) to add a 5% insurance surcharge computed on the total regulated charges assessed to its customers. The Company states that insurance premiums for the Company have increased markedly in the wake of the events of September 11, 2001, necessitating the request. Further, Reliable points out that this Commission has granted a similar request at least to the South Carolina Tariff Bureau, Inc.

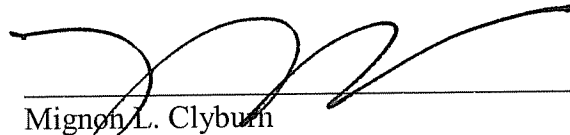

The Company also submitted letters from insurance agents which shows that Reliable received a six percent (6%) increase in its workers compensation insurance premiums, and an eleven to fourteen percent (11-14%) increase in premiums for General Liability, Auto & Property insurance coverage.

Based on these letters, and on the fact that we have granted similar relief to the South Carolina Tariff Bureau, Inc., we hereby grant the Company permission to add a 5%

insurance surcharge computed on the total regulated charges assessed to its customers to its rates.

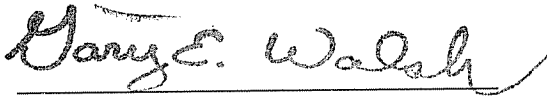

This Order shall remain in full force and effect until further Order of the Commission.
